To a friend, partner and customer:

We are experiencing unique and extraordinary times regarding COVID-19 (Coronavirus) in our community, country and the world. Coronavirus is a respiratory illness that can spread from person to person and was first identified during an investigation several months ago.

Specialty Environmental Group is focused on maintaining a safe and responsible workplace for our valued customers, staff and families. We can provide services that are essential to our customers' ability to maintain safety and sanitation in our communities. As a result we are expanding our services to you, our valued customers. We have the ability, the capabilities and the necessary commitment to safely to support your business.

How we can help you:

Specialty Environmental has been providing good faith surveys, removal, and remediation of hazardous materials since 1983. We are licensed, certified, and up-to-date on all government requirements. Trust our decades of experience to guide you through this process. We are a full service environmental company that is dedicated to safety, quality and production offering the best service at a fair and competitive price.

Specialty Environmental is certified in:

- Asbestos Inspection
- AHERA Building Inspection Risk Assessment
- Lead-Based Paint Inspection
- Lead Inspection Mold Inspection
- Radon Testing and Mitigation
- Vapor Intrusion
